USE OF AI-GENERATED CONTENT

We welcome the responsible use of AI generated imagery for promotional and creative purposes. Any AI generated content used by artists, promoters, or venue partners should respect copyright, intellectual property rights, and the work of other creators.

We encourage transparency where AI generated imagery forms a significant part of marketing materials and reserve the right to decline content that is inconsistent with our venue's branding.

RATE CARD OPTIONS

ADD-ONS TO EXTEND SUPPORT

The best value opportunities are bundled together in our paid marketing packages.

However, if you require ad hoc support or need something to push your campaign a bit further, we can provide rate card items in addition to packaged items.

These add-on marketing assets are delivered in ad hoc manner and therefore may not fall within usual scheduling periods.

Asset	Inclusions	Price
Additional Solus eDM	• Dedicated email send to venue database • Must include new content (i.e. video, images, key selling point, discount/promotional offer)	\$300

IMPORTANT NOTES

Media value estimates are derived from internal modelling using market CPM values set against our average delivery benchmarks, historical campaign performance, and channel engagement data. Values are indicative only and do not guarantee outcomes. Statistics are based on data from the past 12-months (Ticketmaster, Google Analytics, Braze and Meta).

All pricing, inclusions and media value are indicative and subject to change each year, based on campaign requirements, availability and market conditions (i.e. inflation and CPI). While activity is optimised for performance toward sales objectives, specific results cannot be guaranteed. All prices exclude GST. Hard costs for printing are beyond our control and are delivered through a competitive pricing arrangement from a local supplier.

Agreed marketing costs are deducted at settlement or can be invoiced separately by prior arrangement.
